Kimberly (Indonesia)

My name is Kimberly, I come from Jakarta, Indonesia. Before I came to New Zealand, I went to Taiwan for High School. After that, my friend, from New Zealand came to Taiwan for holiday, and he introduced me New Zealand for my further studies. Finally I decided to finish my High School in New Zealand, hoping to learn English and have an interesting experience in my last year in High School.

In New Zealand, I live with Kiwi's family through homestay. I felt an incredible experience because I can know about their food and their lifestyle, which were really interesting. On school holidays, sometimes my homestay family took me to travel around part of New Zealand, and enjoy the beautifulness of New Zealand nature. It's really nice in here because the people are so warm and friendly, that we don't need to being worry or afraid because we live far away from our family.

Since 5 month until now, I came to New Zealand and study in BDSC, it all becomes a very great experience for me which I probably would not get if I did not come New Zealand. Therefore, I plan to continue my university in New Zealand and experience more about life in New Zealand.
