Colombia

Najhoa (Colombia)

Hi , my name is Najhoa, I'm seventeen, I'm from Monteria, Colombia and now I am studying in botany downs secondary college in Auckland, I came to New Zealand to improve my English and I chose this country first because some people said good comments about this country, and also because I was interested in finding a country that British English was the first language ; I finished my secondary studies in Colombia so I consider that entry here in a school would be a great idea because I can interact with people who already know English, So I read the brochures, websites , flyers and other sorts of information about schools in new Zealand and then I chose botany downs secondary college because I liked what I read about this and because this school manage a good population of international students as well as the references to this were excellent.

The best experiences that I have so far here are the opportunity to know about a new culture, meet my lovely homestay , make new friends from different nationalities and all the attractions and activities that you will be done in new Zealand, I think is the best option to learn not only the language, also the personal growth .
