## Pei Fen (Malaysia)

### **Why did you come to BDSC:**

I came to Botany Down Secondary College to further my studies and to experience study life in New Zealand.

### **Goal:**

My goal is to finish school with flying colours and attend Auckland University.

### **Best experience so far this year was...**

My best experience this year was going to the school ball on the 29th May 2010. I was very excited and anxious about the ball because it was my first time going to a ball. The school ball was held in Hyatt Regency Hotel in Auckland City. Our school ball theme was 1920's Masquerade. The ball officially started at 8pm. It was amazingly fun because everyone get to socialise and I took lots of pictures with my friends. Everyone looked very pretty and handsome on that night. Time flies, the ball ended at 12am. I enjoyed my night and was wishing it would not end that fast. I would like to thank all of the Ball Committees that put so much effort in it and the ball was a success. The school ball was one of my best experiences so far this year.
